THOMAS McCULLOUGH, Collector.

REPORT OF SUPERINTENDENT OF HIGHWAYS

To the Honorable Mayor and Board of Aldermen.

Gentlemen:

As Superintendent of Highways, I beg to submit my report for the year ending March 31, 1916.

We began work about the usual time in the early part of April first removing snow and ice from Main and North streets and cleaning up streets in different parts of the city. After that we took up the regular work of repairing. We turnpiked Charlotte road from Lunn's corner to Braggs, 1700 feet, surfacing with gravel; also on Baring street 780 feet; Pool street 340 feet; Chandler street 360 feet; Union street 2,900 feet; Main street 1,500 feet and South street 620 feet—surfacing with gravel in all this work. Built 1 catch basin on Barker street, 1 on the corner, 3 on Main street, 3 on North street, and 2 on King street. Built 1 culvert on Baring street, 1 on Boardman street, 7 on Charlotte road, 6 on Red Beach road, 3 on Union street and 1 on Walnut street. Re-covered crossing near Brickyard with 10 by 10 timber; built 1 crossing at Red Beach.

On sidewalks we placed a wood curbing on Union street opposite the Library and repaired the walk. On Main street near Dr. Mason's residence, we built a concrete curbing about 300 feet and repaired the walk. On South street we built 480 feet of concrete walk. We also repaired sidewalks in different parts of the city.

On sewers, we repaired the sewer on Monroe street; repaired the sewer on Academy street; repaired the sewer on Union street.

Our State Aid Highway work was done on Main street, beginning near the foot of South street and extending easterly 1,400 feet to the top of Hinkley Hill, using 1,226 tons of crushed rock. We also repaired the

State Aid Highway on Main street, using 300 tons gravel and 48 tons crushed rock.

On Bridge work, we have made repairs on the Milltown and Red Beach bridge, also some repairs on the other bridges. We have collected and paid in to the City Treasurer for sewer entrances and repairs, \$65.00, and for concrete walks built, \$13.00.

We have one steam roller, two road machines, two sprinklers, two dump carts, four snow plows, one crusher with engine and boiler. Also the usual quantity of picks, shovels, etc. The steam roller was repaired and our new sprinkler purchased during the year.

DAN CAMPBELL, Supt.

FREE LIBRARY AND READING ROOM

To the Honorable Mayor and Board of Aldermen of the
City of Calais:

Gentlemen:

The Trustees of the Free Library and Reading Room offer the following report of the operation and present condition of the institution in their charge. An increase in the number of books drawn in the course of the year to the amount of nearly one thousand volumes indicates a growing appreciation on the part of the public of the advantages offered by the library. The growth of the library and the increase in the number of readers have made it necessary to employ more assistance in the care and administration than formerly has been required. The need of an increase of shelf space mentioned in the last preceding report has been met by building an extension upward in all the alcoves, thus providing accommodation for several thousand more volumes. The expense of this work was met from the legacy under the Will of Mrs. Mary C. Robbins. Miss Bessie T. Allen, who for several years had discharged the duties of the librarian acceptably, having removed her residence from the city, the place has been filled by Miss Alice L. Delaney, who is rendering efficient service.

The following figures present a summary of the work of the year:

Books drawn	12,885
Readers in Reading Room	6,598
Volumes acquired by purchase	261
Volumes acquired by gift	8
Bound Periodicals	16
Federal and State documents	41

The Library includes at this date about eleven thousand and five hundred volumes.

Respectfully submitted,

CHAS. G. McCULLY, President.
WM. J. FOWLER, Secretary.

REPORT OF CITY PHYSICIAN

To the Honorable Mayor and Board of Aldermen, City of Calais.

Gentlemen:

Again I have the pleasure of submitting to you my report, as City Physician, for the year ending this date.

Number of visits made at the	
Almshouse,	68
Number of visits made outside,	290
	50

Obstetrical cases outside Almshouse, 1
Patients seen at my office, 32

391
Medicine furnished, 25.10

There have been four deaths at the Almshouse, and six outside. The causes of these deaths are as follows: three general debility, two tuberculosis, one cancer of the stomach, one pulmonary hemorrhage, one enterocolitis, one pneumonia and one cardiac asthma.

Respectfully submitted,

ERNEST A. CRANSTON,

March 31, 1916.

BOARD OF HEALTH

To the Honorable Mayor and Board of Aldermen, in the
City of Calais.

Gentlemen:

Another year has rolled around and we are called upon to make a report of the doings of the Board of Health; it is with pleasure that this is done.

The Board consists of

E. A. Cranston,	Term expires 1916.
M. S. Young,	Term expires 1917.
A. O. Dennison,	Term expires 1918.

Several complaints have been made to the Board. some were without foundation and the complainant refusing to sign the proper paper or refusing to have their name used; these complaints were not looked into by the board, other complaints, being properly made were in-

vestigated and adjusted. There is, however, a complaint in the hands of the Board to-day which will doubtless, require some legal action.

Four cases of scarlet fever have been reported. These are the only quarantineable cases reported during the year.

Under the new Rules and Regulations of the State Board of Health there are twenty-five notifiable diseases, more than twice as many as in previous years. These twenty-five diseases are divided into the following degrees: Full Quarantine, Modified Quarantine and Observation. These new Rules and Regulations impose more work on the attending physician, the householder and the Board of Health.

"Full Quarantine means: Strict isolation of the person sick and those attendant upon him in a room or rooms screened against flies and mosquitoes in the months when these insects are around."

"Modified Quarantine means: Complete separation of the person sick and of those attendant upon him from all other persons in the building or on the premises, in room screened when practicable against flies and mosquitoes as mentioned above."

"Observation means: The inspection from time to time by the officer or agent for the local board of health of a person suffering from or affected with an infectious or contagious disease.

There is much more we would like to say in regard to the new Rules and Regulations but knowing your time is valuable we will bring this to a close.

Respectfully submitted,

EARNEST A. CRANSTON, Secretary.

March 31, 1916.

M. BRADISH, Auditor.

REPORT

OF THE

SCHOOL DEPARTMENT

To the Mayor and Board of Aldermen, City of Calais.
Gentlemen: By direction of the Superintending School Committee you are handed herewith a complete report of the School Department for the year ending March 31, 1916.

J. M. PIKE, Secretary.

March 31, 1916.

COMMITTEE

GEORGE DOWNES, Esq., Chairman.
BENJ. W. CORLISS, Milltown.

Office in City Building. Room 5

Hours (except vacation)

Mondays and Fridays,	4.00 to 5.00 p. m.
Wednesdays and Thursdays,	7.30 to 9.00 p. m.
Saturdays,	9.00 to 11.30 a. m.

Monthly meetings of the School Board are held regularly on the first Wednesday of each month at 8.00 p. m.

This report will contain facts relating to the conditions and progress of our schools. Some financial statistics are herein recorded which we hope will gain the attention of the father who has a boy in school.

CHANGES IN OUR ELEMENTARY SCHOOLS

We have in the service a very loyal and earnest corps of teachers. They have labored, many of them, for some years in our school rooms. The changes have not been frequent during the year. Many of them have come about by transfers to other schools. We have the following changes to record.

Mr. Myron Smith, principal of the Milltown schools resigned in June and Mr. Hugh R. Drisko assumed the duties in September, who was succeeded by Mr. C. A. Weed during the latter part of the fall term.

Miss Margaret Gardner has been doing assistant's work in the building during the latter part of the year.

Miss Kathleen McVay, formerly of Red Beach primary, was assigned to the primary school in Milltown in place of Miss Gladys Coleman transferred to the lower grades at Bog Brook.

Miss Lena Grant was transferred from the Brook school to the sixth grade in Calais in place of Miss Bridgham, resigned.

Miss May Greenlaw is assistant in upper grades at South Street while Miss Florence McLain was transferred to the Wilson school. And Miss Carlow resigned the latter place to take a course in Machias Normal School.

Miss Katherine Harvell was secured for the upper grades at the Brook school in place of Miss Spofford, resigned.

At the Beach Mrs. Una Brann Shattuck is principal of the High school, Miss Hunt, resigned.

Mrs. Edna Calkins was assigned to the Primary school in place of Miss McVay transferred.

CALAIS ACADEMY

By far the most important changes and marked conditions of improvement for the year have occurred in our Academy. At the opening of the year in September Mr. Kelson, formerly sub-master, was placed at the head of the school. Ashley St. Clair, Jr., was appointed sub-master, Miss Ethel I. Bradbury succeeded Miss Spring in the Business department and Miss Lou Hill has been conducting work as part-time teacher. The general attitude of the student body and the tone of the school has not been so high and so encouraging for seven years. The enrollment never was so large in the history of the school. The losses have not been so small in recent years, considering the number of pupils concerned. The cooperation and kindly interest of the principal in the affairs of the young men and women of his keeping have been so marked as to merit the approval of parents and public. The progress of the pupils has been commendable. Something has happened to focus our attention on the business end of the school work. The pupils in these courses have been partly discovered. Here we find those boys and girls who are not going to college—the coming men and women of the future business world.

Our new course of study, arranged by Mr. Kelson and accepted by the Joint Committee, is on trial. It may be too early to pronounce judgment upon it.

On account of the large number of pupils at the opening of the year it was found next to impossible to carry on the work without additional assistance in teaching. Miss Lou Hill was accordingly engaged to take over a portion of the work during the forenoon session. It will be a distinct loss if her services are not retained for the coming year. What would mean much more for the school would be her labors both forenoon and afternoon.

WILSON SCHOOL

Your attention is again called to the Wilson school which was re-opened about two years ago. At that time it seemed an unprofitable course to take and at the present time there seems to be no occasion for a change of feeling. There are only eight pupils registered. The average attendance can certainly not meet the legal requirements in such cases. The spirit of the teacher and the attitude of the pupils are commendable, but there is hardly enough of the substantial to the school to create rivalry, enthusiasm, life and profit. It would seem to be out of the question to accept some of the pupils into the corresponding grades of our city schools. By law this school would automatically close. You are urged again to consider the conveyance of the pupils to the Bog Brook school, where an effort is made to maintain reasonable conditions for school work.

CONVEYANCE

Those parents open to conviction and willing to see the increased benefits for children taken to the centralized school are becoming more reconciled to the plan of conveyance. This is a strong feature of school policies outside of New England and prevails to an astonishing degree in Northern Maine. But in our city our conveyance problems are attended with more or less friction and misunderstanding. As long as transportation is necessary in our school system probably there will be a measure of disquiet on the part of those who think they discover some mark of discrimination. It ought to be an out and out policy of the School authorities to convey for the sole purposes of the good of the child and not as a matter of financial economy. We have from twelve to fourteen pupils living on the Charlotte and Baring roads who are conveyed to the Milltown schools. Mr. C. M. Lee has performed this service to the apparent satisfaction of the school board. While there may be a measure of hardship in general, yet conveyance

of pupils to larger and more profitable schools has such significant advantages that this matter should receive more than ordinary consideration at your hands.

MANUAL TRAINING

Among the important features of the work for the year are the improved conditions for manual training. We are all gratified to find as the net result of the earnest efforts of the Parent-Teacher Association a shop for this purpose. Without the aid of parents in this regard we could not possibly have brought about the erection of this building. The city government made a contribution of \$150.00. The quarters are not as yet quite completed, but funds are available which will nearly, if not quite, finish the work.

Mr. Meserve who has had charge of the classes of boys who have built the shop deserves, publicly, the thanks of the city for the manner in which he has accomplished the task. All who have had a share in its construction should share in this approval. Some have raised the question whether the city government fully realizes what the Parent-Teacher Association has done since its organization for our boys in this kind of work.

The regular exercises of the manual training classes have been completely checked for some weeks by the serious illness of Mr. Meserve. But arrangements are already made for the work to go on to completion in the spring.

TEXT BOOKS

At the request of chairman Downes the teachers have made up a list of text books for the coming year. This totals about \$1150.00. We are using our books up to a point where, in many instances, little is left but the binding thread and a few torn leaves. We do not think that the above figures are overestimated. The laws of the state make it mandatory on the city to pro-

vide free books and we are hoping that the city will look with some favor on this part of our expenditures.

REPAIRS

As to the repair work on our buildings you are referred to the school report of 1915.

Incidentals,,	\$300.00	
Calais Academy (toilets)	400.00	
Fire escapes and grading,	75.00	
Repairs at South Street,	50.00	
Painting, Church Street,	300.00	
Painting, Milltown, Grammar.	300.00	
		<hr/> \$1425.00

MEDICAL INSPECTION

Your attention is again called to the need of some form of Medical Inspection in our public schools. We have reported this need in previous years. The teacher is supposed to dismiss from school any pupil whom she suspects of being a menace to other children. But not all teachers are able to diagnose cases correctly. Teachers, also, are required by statute to make an examination of sight and hearing of the pupils under their charge. But such an examination would hardly be called scientific from a physician's point of view. Why could not some arrangement be effected with the City Council whereby the city physician would be regarded as the proper party to whom teachers might refer pupils for advice when necessary?

COMMUNITY LOSSES

Death after a lingering illness has taken from the city Dr. Stephen E. Webber, who was closely related to our school interests, not only, but to nearly all matters which concerned the city's welfare. Rarely can a community claim as its own one who dared to stand so squarely for the right and fight so fearlessly the

wrong. His connection with the school activities of Calais covered a period of many years and his death creates a vacancy on the school board which few men can fill.

It seems quite proper to incorporate in this report the following Resolutions unanimously adopted by the Parent-Teacher Association at a meeting held in Milltown on the eleventh day of February 1916.

"Whereas, on the twelfth day of January, 1916, there occurred the death of Dr. Stephen E. Webber, who for nearly thirty years was closely identified with the interests of the schools of Calais, as principal of the Academy, Superintendent of schools, member of the school committee and trustee of Calais Academy:

- "Be it resolved—that we recognize the value of his work in connection with our schools. And that in his death we recognize the loss to our association an efficient and helpful member, and to society the loss of a good man of the highest type.

"Resolved: that the secretary be instructed to place this preamble and resolution on the records of the association and send a copy of the same to the family of Dr. Webber."

We have to record also the serious loss sustained by the school interests of Milltown in the untimely death of principal Hugh R. Drisko, in the railroad accident of November 13, 1915. Mr. Drisko was a young man of exemplary habits and of unusual promise. He had succeeded in awakening a spirit of mutual sympathy among the children and they had come to regard him with the kindest of feelings. Expressions of sorrow on the part of the community were outspoken, and this sorrow was noticeably shared by the teachers with whom he worked.

FINANCIAL CONSIDERATIONS FOR THE COMING YEAR

In order to meet expenses for common schools for the coming year the following amounts will be necessary, basing the estimates on the present rate of expenditure.

Teachers,	12,194.00	
Janitor services,	982.00	
Fuel,	1,752.00	
Conveyance,	360.00	
		<hr/>
		\$15,288.00
State Aid for year 1915-16,	13,138.31	\$13,138.31
		<hr/>
To be provided by the city,		\$2,149.69

High School

Teachers,	4,384.00	
Janitors,	234.00	
Fuel,	200.00	
		<hr/>
		\$4,818.00
State Aid,	500.00	
Trustees Calais Academy,	750.00	
Tuition,	300.00	\$1,550.00
		<hr/>
To be provided by the city,		\$3,268.00

Some increase in salary will be imperative during the coming year in our high school department. Every effort reasonable should be made to obtain an appropriation of \$3,500.00 for this work.

M. BRADISH, Auditor.

AUDITOR'S STATEMENT

To the Honorable Mayor and Board of Aldermen:

I herewith present a detailed statement showing the appropriations and receipts from all sources, also the Expenditures of the City of Calais for the fiscal year ending March 31st, 1916.

The accounts as shown in the reports of the various departments have been compared with the city books and are certified correct. Vouchers for the same are on file at the City Clerk's office.

M. BRADISH, Auditor.

MAYOR'S ADDRESS
AND
CITY GOVERNMENT
OF THE
CITY OF CALAIS
FOR THE FINANCIAL YEAR
FROM
APRIL 1st, 1916, TO MARCH 31st, 1917

MAYOR'S ADDRESS

Gentlemen of the City Council:

Having been chosen by the unanimous suffrages of our fellows to administer the affairs of the City during the coming year, we meet here to-day to perform the duties defined in the City Charter. Such an unanimous election as has been accorded us is a singular honor and imposes a burden which may not be lightly considered. To those of you who are new to service in City affairs it is an expression of confidence which charges you with the most painstaking attention to your duties. To those of us who have served during the past year it is more that such an expression of confidence—it is the stamp of public approval placed on services already rendered and charges us, even more strictly if possible, with such attention.

Before we proceed to the business of the morning I wish to say a word in recognition of the services of those of our citizens who have been instrumental in securing a new tenant for our shoe factory, and in acknowledgment to that tenant of the pleasure we feel in having the plant again in operation. It is an indication of prosperity which we are glad to feel is well deserved. I shall recommend a little later an increase in the appropriation for abatements to take care of the taxation of factory, stock and equipment. We desire prosperity as well for that tenant as for ourselves and should stand ready to lend aid in any way that falls within our province.

In making my recommendations as to the conduct of affairs this year, I shall be very brief and call attention only to those matters which I conceive to be of major importance—preferring to work the problems out with you as they arise rather than to lay out any elaborate program at this time.

City Finances

It may almost literally be said that our first function is to hold the public purse. Our administration will be judged in the last analysis by the economy practiced, in the results achieved by, and the accurateness and intelligibility of the accounting given for the money we may receive and disburse. To secure the best results two things are necessary: to place competent officials in charge of the departments where expenditures are made, and to provide a system which shall at all times keep not only ourselves but the entire public in close touch with the condition of affairs. The first is entirely your problem and will, I have no doubt, be carefully considered and advantageously settled. The second is our joint responsibility and in connection therewith I make the following recommendations:

First, that you require the Auditor to prepare accurate and itemized statements showing the indebtedness of the City, the valuation of the property of the City and the insurance carried against the several items of that property. These matters were all recommended a year ago but not acted upon by your predecessors.

Second, that you require the several officers of the City to make monthly or quarterly statements to you showing the compensation received by them in their official capacities during such periods outside the salary paid from the City treasury. For illustration I cite the City Clerk, whose fees are fixed by law, and the Superintendent of Cemeteries, whose compensation is for extra labor—all officers should be included.

Third, that you require the accounts to be passed at each monthly meeting to be presented in manifold and a copy mailed to each member of the Government so that the same may be received and examined in advance of the meeting. Copies will thus be available for the press if desired and the fullest information presented first hand to those whom we have been elected to serve.

Fourth, that you require the Auditor to classify the expenditures in each department so that the major

items can readily be noted. Under a proper classification carried through several years a sound basis for comparative expense will be secured.

Fifth, that you require each of the department heads to be directly responsible for the purchasing of all supplies needed in the line of his work. In recent years great confusion has resulted from the practice of allowing purchases to be made by a number of different parties.

Lighting and Water Supply

As was the case a year ago I recommend the making of contracts with the utilities supplying the City with water and light. Only in this way can the most advantageous price and the most satisfactory service be obtained. These contracts should make definite in each case the right of the utility in question to the use of our streets—a matter now uncertain according to the report of the City Solicitor.

Valuation and Assessment

As was the case a year ago I recommend the appointment of an assistant assessor for each ward to make a careful canvass and determine what, if any, property is now escaping its just burden.

Appropriations

The amounts which I am suggesting for the several appropriations are in the main those which recent experience has shown to be necessary. In each case the amount is small from the point of view of desirable expenditure and yet large in the present condition of city finances. Strict economy under the circumstances is essential.

In the particular items I am recommending an increase of Five Hundred Dollars (\$500.00) over last year's appropriation to the sinking fund. The necessity of this increase is apparent in view of the immense total of bonds falling due only a few years hence.

In the school department I recommend an increase of Two Hundred Dollars (\$200.00) each for repairs and cleaning. The condition of our schools has long been the subject of comment among our citizens and though no formal complaint has ever been received it seems desirable to remedy such conditions as rapidly as the ability of the City will warrant. I take this occasion to say to the citizens generally that the Council is always ready to listen to such complaints as any citizens or organizations may see fit to make.

In the abatement appropriation I recommend as already noted an increase of Twelve Hundred Dollars (\$1200.00.)

The amounts recommended are as follows:

Calais City Band,		50.00
Cemeteries,		850.00
Calais,	800.00	
Red Beach,	50.00	
Contingent Fund,		2,500.00
Discount and Abatement,		3,150.00
Election Expenses,		1,300.00
Fire Department.		3,110.00
General Appropriation,	2,710.00	
New Hose,	400.00	
Insurance,		450.00
Interest,		5,500.00
Library,		360.00
Lighting Streets,		3,080.00
Police,		1,875.00
Poor,		2,400.00
Salaries,		5,935.00
School Department,		8,335.00
Common Schools,	1,650.00	
High School,	3,300.00	
Manual Training School,	385.00	
Text Books,	700.00	

Repairs,	800.00	
Supplies and Cleaning,	850.00	
Milltown Grammar school note,	500.00	
Sinking Fund,		2,000.00
Street Department,		7,050.00
Bridges,	1,000.00	
Highways	5,250.00	
Sewers.	400.00	
Sidewalks,	400.00	
State Highway.		900.00
Maintenance of State Highway.		75.00
Water Supply,		3,800.00
		<hr/>
		\$52,720.00

These several amounts should be carefully considered by you and when finally determined should be impressed upon the officials having them in charge as limits which in no case should be exceeded by them.

JAS. S. McCREA, Mayor.
